

GUEST ARTIST WORKSHOPS FOR SUMMER ART CAMPS

WEEK 3 – Metamorphosis (8 to 11 years old)

Independent Filmmakers Co-operative of Ottawa
La Coopérative des cinéastes indépendants d'Ottawa

"Scratch Animation" with the Independent Filmmakers Co-operative of Ottawa

Tuesday, July 24

Create a short animated film! Scratch Animation is fun for beginners and accomplished artists. Students will draw, paint or scratch onto film stock, then screen their beautiful, finished work; presented in partnership with the Independent Filmmakers Co-operative of Ottawa.

PARTNER:

The Independent Filmmakers Co-operative of Ottawa Inc. (IFCO) provides access to Super 8mm/16mm and 35mm film training programs (both introductory and advanced), film production equipment, on-site post-production facilities and film screening opportunities. The Co-operative encourages a discourse in, and an appreciation of film. It strives to develop and support an innovative and diverse based community of artists. IFCO is dedicated to removing as many barriers as possible for film artists committed to working with emulsion film, both within and outside of Ottawa. The Co-operative remains, to this day, the only organization which provides this service in Ottawa.

"Petri Dish Specimens" with Cindy Stelmackowich

Thurs, July 26, 2018

Combining art and science, campers will design their own 'creative DNA' models and natural creations inside of petri dishes.

Bio:

Cindy Stelmackowich is a local artist that works in the cross-disciplines of art and science. She creates innovative sculptures and installations that reference the human body, elements in nature, and scientific illustration. Cindy has exhibited her work in solo and group exhibits across Canada and internationally. Her work is in the collection of the Ottawa Art Gallery, the Canada Council Art Bank, the City of Ottawa collections, and other notable public and private collections.
